Dedication

To our helpful and understanding teacher who has rendered every service possible to uphold the spirit of Quitman High School; to one who has worked without ceasing for our educational improvement; to one who encouraged us and guided us in all our undertakings, who in his first year at Quitman taught us willingly, faithfully and with fullest capacity, we the Senior Class of 1958, proudly dedicate this edition of "The Prorenata" to our coach - -

Charlotte Lowrey, Sue George, Paul Walsworth, and Carolyn Koonce. Mr. Kavanaugh, Advisor.

We, the annual staff of '58, are proud to present the 1958 Prorenata. We have tried to give some idea of the most important activities of the past year. We hope, as you look back through these pages, that they will always be a source of happy memories.

The Staff

In Memoriam

On January 9, to a friends' house I had gone
When daddy called me and said you better hurry on
home.
I asked him why and all that he said,
James had a wreck and is almost dead.
I came on home to find all had gone.
To an Arkansas hospital where his last breath was
drawn.
The doctors worked hard, but it was all in vain.
For no longer in this earth does his body remain.
He really isn't dead, he's at his home in the sky,
And if we trust in God we'll meet him on high
I'll never forget his smile so sweet
He dressed real nice, his clothes fit to a T
And his hair in a crewcut just had to be
He finished school in '57
Had been to look for a job when called on to heaven
He didn't know then that soon he would be
On a job with Jesus eternally.
We know he is happy with Jesus up there.
For now he is free from all toil and care.
We will love you Dear James, but no more will
we grieve,
For soon we'll meet you if only we'll believe.
This God has promised the One who knows best,
And soon we'll all meet you, in your Haven of Rest.

Principal's Message

1958 finds America engrossed in the problem of the urgent need for more scientists in order that we might offset Russia's new spurt in the field of space travel. America has grown suddenly very science conscious and we are searching our educational system to find the answer to supply the need of instruction in this field. Too often in the face of emergency such as this, people permit themselves to be shoved overboard on one side of an issue without ever stopping to THINK. I believe we are facing this critical situation now. As students today you need to be learning to think critically more than you need to learn history or mathematics. Our world is constantly changing and we must be willing to think through the problems we face. Learn to think without confusion or malice. Learn to think with sincerity. Most of all learn to think with love. "But now abideth faith, hope, love, these three, and the greatest of these is love." 1 Cor. 13:13.

That's an expression you'll hear often among members of Louisiana Power & Light Company. And we're mighty proud, too, for we've worked hard to earn that reputation.

Our group life insurance, hospitalization, sick leave, and retirement programs rank with the best in the nation, and you'll find our members' earnings compare very favorably. But there's something more, too -- a friendly spirit of cooperation among our members in making a good company even better.
